New Project

CP 72

Bespoke on-line website to
provide current information on
pesticide approvals for
ornamental crops

Project Number: CP 72

Title: Bespoke on-line website to provide current information on pesticide approvals for ornamental crops

Start and end dates: 07/12/2009 – 07/04/2010

Project Leader: Dr Miles Thomas

Project Co-ordinator: Nick Dunn

Location: Fera, Sand Hutton, York

Background and project objectives

To provide growers with clear and updated guidance on approved pesticides for use in ornamental crops through the HDC member's website. A link on the members website will take users to a searchable website allowing choice of product, crop, active, chemical group. Search results will show, on-label, off-label, LTAEU uses and also if chosen to include on the search page those uses once approved through LTAEU but no longer allowed.

Further information

Email the HDC office (hdc@hdc.org.uk), quoting your HDC number, alternatively contact the HDC at the address below.
