

**Project Title** Evaluation of late autumn/winter cauliflower and spring cabbage cultivars

**Project number:** FV 202a

**Project leader:** Bill Herring, Duchy College, Rosewarne

**Report:** Final Results for the 2002-2003 season

**Previous report** none

**Key staff:**

  

**Location of project:** Trevarnon Farm, Gwithian, Cornwall

**Project coordinator:** Bill Herring, Duchy College, Rosewarne

**Date project commenced:**

**Date completion due:**

**Key words:** Cauliflower, spring cabbage

Whilst reports issued under the auspices of the HDC are prepared from the best available information, neither the authors nor the HDC can accept any responsibility for inaccuracy or liability for loss, damage or injury from the application of any concept or procedure discussed.

The contents of this publication are strictly private to HDC members. No part of this publication may be copied or reproduced in any form or by any means without prior written permission of the Horticultural Development Council.

The results and conclusions in this report are based on a series of experiments conducted over a one-year period. The conditions under which the experiments were carried out and the results have been reported in detail and with accuracy. However, because of the biological nature of the work it must be borne in mind that different circumstances and conditions could produce different results. Therefore, care must be taken with interpretation of the results, especially if they are used as the basis for commercial product recommendations.

## AUTHENTICATION

We declare that this work was done under our supervision according to the procedures described herein and that the report represents a true and accurate record of the results obtained.
