# New Project

---

## PO 014

Black root rot in containerised  
subjects – Chemical and biological  
options for control

**Project Number:** PO 014

**Project Title:** Black root rot in containerised subjects –  
Chemical and biological options for control

**Project Leader:** Dr Erika Wedgwood

**Contractor:** ADAS UK Ltd

**Industry Representative:** N/A

**Start Date:** 01 April 2013

**End Date:** 30 April 2013

**Project Cost (total project cost):** £2,802

**Aims & Objectives:**

To provide information to inform progression towards reducing losses through Black root rot infection

**Benefits to industry**

The project will provide collated information to inform progression towards reducing losses through Black root rot infection. This will provide the Protected ornamentals Panel with clear guidance on how best to tackle the issue of lack of product choices for controlling the disease which may include new trials work as well as some more immediate knowledge transfer of updated information.
